## ABOUT US:

Rowdy parrots is a NFT collection of 10.000 unique and algorithmically generated 3D parrots living on the Ethereum blockchain.

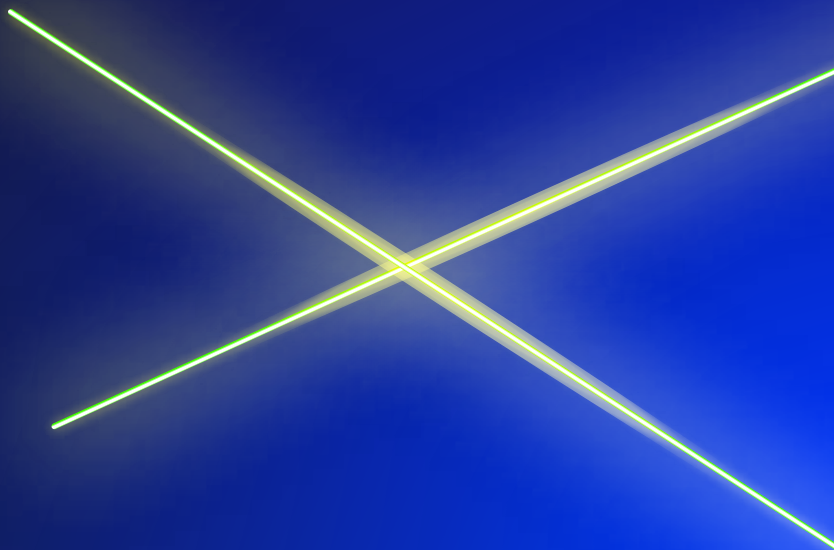

Parrots being an endangered species, we found ourselves in the urge to act and make a positive change. We decided to create a foundation based on the NFT's savings, in order to bring back their natural habitats.

## VROWDY:

VRowdy Foundation is a nonprofit corporation that enhances people's knowledge and enjoyment of parrots. It supports education about parrots' welfare, and will be working on regenerating their environment. We already count with a group of specialists and veterinary workforce to improve the quality of life of the species. We will be working in Central and South America, in the Amazonas jungle.

## ZOOVERSE:

DAO Zoo can be found in the sandbox metaverse, a world parallel to the real one, inside which people can interact with each other and with the environment. The project seeks to be able to enjoy animals without making them suffer, so our idea is to recreate a Zoo with animal lookalikes for every member to admire and experience them in a Virtual reality. Also, the Zooverse will have P2E games in which the Rowdy Parrot will be your character.

## THE JUNGLE:

Is a DAO space is where we will show holders the demos of our projects, and they will have access to various benefits such as keeping up with the foundation growth and updates, free tickets to the Zooverse, giveaway samples of the merchandise, and later, voting on their future.

## \$ZOO (TOKEN):
